

****Group Task: HTML Website Development********Collaboration and Tools:****

- Make a group of Four Members.
- Use version control (GitHub) to collaborate and track changes.
- Communicate regularly via the designated Edureka learning platform for updates.

****Deadline:****

- ****Start Date:**** August 16, 2024
- ****Submission Deadline:**** August 24, 2024

****Task Description:****

Your group will collaboratively design and develop a multi-section static website. The project will involve creating various web pages with the following components:

1. ****Infotainment Webpage:****

- Create a dynamic infotainment section on the homepage.
- Include interesting facts, news, and media content.
- Ensure proper use of HTML structure (`<div>`, `<header>`, `<footer>`, etc.).

2. ****Tribute Page:****

- Build a tribute page dedicated to a famous personality of your choice.
- Include text, images, and links that describe the person's life and achievements.
- Focus on clean, respectful design.

3. ****Static Welcome Page for Edureka:****

- Design a static "Welcome to Edureka" page introducing users to the platform.
- Include a navigation bar, a welcome message, and basic information about Edureka.
- Ensure the page is visually appealing and well-structured.

4. ****Price List and Order Page:****

- Create a static webpage that displays a price list for different products/services.
- Include a form for users to place orders, collecting details like name, email, product, and quantity.

****Group Division and Responsibilities:****

- ****Learner 1:**** Focus on the Infotainment Webpage.
- ****Learner 2:**** Develop the Tribute Page.
- ****Learner 3:**** Work on the Static Welcome Page for Edureka.
- ****Learner 4:**** Design the Price List and Order Page.
